The Game of Life.

How to Increase the Value of a Cow.

Every one who owns a cow can see at a glance that it would be profitable to increase the value of her, but every one cannot tell how to do it. We can, and we think that we can make it equally palpable to our readers. If a cow is kept for butter, it would certainly add to her value if the butter making properties of her milk should be increased. In summer or in winter this can be improved in just as the yield of a cultivated crop can be improved by what is fed to each, and it is simply a question of will it pay, in mannring the one or feeding the other. Indian corn

Indian corn will add to the quantity and quality of the butter to a very sensible degree, and it is simply a question of easy solution, by easy experiment, whether it will add to the profit of the buttermaker to buy corn at one or two cents a pound, and convert a portion of it into butter at twenty-five cents a pound, or whatever the market price of corn and butter may be, and a portion of it into fat, and another portion of it into manure, for that is the result of the chemical change produced in the laboratory of the country of the ratory of the cow's stomach. The same result will follow any other kind of feeding. Good pasture will produce Buy Goods Cheaper as the cows can carry; but does it folthat even then it will not be profitable to feed her with some more of promising HARDWARE STORE food to increase the quality of butter just as it sometimes proves profitable to feed bees to enable them to store more honey? It certainly does appear to to me that the value of a cow, upon ordinary winter food, may be almost doubled by making that food snitable for the purpose of increasing the quality of milk, if that is the purpose for which the cow is kept. Farmers generally understand that they can convert corn into beef, pork and lard, and some of them know exactly at what price per bushel it will pay to convert corn or I have also a large variety of any other kind of grain into the dairy Cook, Parlor and Box Stoves, hazard one? We fear so. Some persons know that they increase the saleable value of butter, by adding the col oring matter of carrots to it. The Balsamic Cordial is entirely a Vegetable production, combining the healing properties of the Balsam, with the invigorating qualities of a Cordial, producing a combination so well adapted to the purposes intended, that there are but few cases of disease which will not, at an early period, succumb to its healing and life giving properties. For ages, has the treatment of pulmonary diseases occupied the greater portion of the attention of the scientific of the inedical world, but none acquired more eminence in his treatment of these diseases, than the celebrated Prussian Dr. Hoofland, the originator of the Balsamic Cordial. It life was devoted to the production of remedies that would stand unrivailed. How well he has succeeded, the American people are able to judge: and we positively assert, that no preparations that have ever been placed before them, have conferred the same amount of benefits on suffering humanity, or have elicited so many commendations from all classes of society, as the remedies of Dr. Hoofland, prepared by Dr. C. M. Jackson & Co., of Philadelphia.

The Cordial is designed for a class of diseases

Sometimes it burst out in Ulcers on my hands and arms; cometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the discrete grew worse. At length I was rejected to read in the Gespel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your regulation that any thing you made must be good. I sent to Cincinnatiand got it, and used it till it cured ms. I took it, as you advise, in small does of a temponful over a month, and used aimost three bottles. Da. J. C. Atran: Sir, I cheerfully comply with the request of your agent, and report to you some of the check. I have realized with your Sarraparilla.

I have curied with your Sarraparilla.

I have curied with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly sunderful in the cure of Voscrosi and Marcurial Disease. One of my patients had Syphilitic alvers in his throat, which were consuming his palate and the top of his month. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his beats and kill bine. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well sgain, not of course without some disinguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become se sensitive to the weather that on a damp day she suffered accurating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your latarafory must be a great remedy; consequently, these truly remarkable results with it have not exprised me.

Fraternally yours,

Dr. J. C. Aren: Sir, I have been afflicted with a pairiful chronic Rieumotiem for a long time, which haffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Earseparilla. One bettle cared me in two weeks, and restored my general health so much that I am for better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing falled to relieve me; and I have been a broken-down man for some years from no other cause than strangement of the Liver. My beloved pastor, the flev, Mr. Espy, advised mo to try year Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good chough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Carles and Exfoliation of the Bones. A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below pamed are pleased to furnish gratis to all who call for them.

Ayer's Cherry Pectoral, FOR THE BAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchills, Incipient Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease. of the Disease.

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its turnly wounderful cures of pulmonary disease, have made it known throughout the civilized nations of the cartin. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their mist of its rictory over the subtle and dangerous disorders of the threat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind. Prepared by Dr. J. C. AYER & CO., Lowell, Mass.
